

Our Pledge – The Detail

1. Measure & Disclose

- We pledge to monitor chalet energy by installing smart meters
- We pledge to measure water usage
- We pledge to measure both food and recycled waste
- We pledge to measure in-resort company vehicle fuel usage
- We pledge to disclose all the above measurements

2. Reduction

- We pledge to facilitate and promote the lowest carbon travel options to/from resort for our clients
- We pledge to reduce resort vehicle usage
- We pledge to promote in-resort bus usage to staff and clients
- We pledge to set targets for energy use reduction
- We pledge to reduce the amount of meat in our menus
- We pledge to set targets for waste reduction

3. We pledge to the following energy saving actions

- Using 100% LED Lightbulbs
- Ensuring all new appliances are A++ energy rated
- Designating a member of staff to monitor energy performance
- Having a towel reuse policy
- Implementing a heating strategy that reflects use and does not overheat the chalet

4. We pledge to the following waste saving actions

- Working towards being the first One Tree chalet company pledge taker to eliminate all single-use plastic
- Implementing a purchasing policy that prioritises products with less packaging
- Reducing food waste
- Diverting recyclable waste from waste stream
- Asking our suppliers to remove packaging from their products
- Using products and suppliers that are committed to reducing waste
- Providing recycling bins in all the chalets
- Removing single use plastic bottles from the bathrooms

5. Education

- We pledge to add an environmental section to your staff training
- We pledge to announce a staff environmental champion at the end of the winter
- We pledge to display our One Tree pledge on our website
- We pledge to raise the profile of our environmental progress through blogs, emails and social media
- We pledge to add questions to our guests holiday questionnaire
- We pledge to collaborate with One Tree and use the logo on our staff uniform

6. Sustainability

- We pledge to source sustainable food where possible. For example food that is local, seasonal and ethically produced.
- We pledge to stock products that have good environmental credentials
- We pledge to remove products that contain palm oil and soy from our kitchens
- We pledge to remove cleaning products that contain large amounts of chemicals
- We pledge to set targets for water reduction

7. We pledge to the following waste saving actions

- Implementing water saving measures (flow restrictors, reduced WC flush volumes etc)
- Maintaining water systems and fix all leaks
- Banning harmful chemicals from all drains
- Recycling waste oil

8. Offsetting

- We pledge to plant 10,000 trees
